

PERFORMANCE ENHANCING POWDER

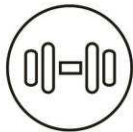

STRONGEST STIMULANT PREWORKOUT HEMO SHOCK®

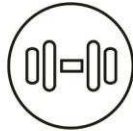

HEMO SHOCK provides a drastic increase in stamina effects for muscle building and endurance athletes. Get an unfair advantage in tolerating grueling muscle building workouts or extended cardio related activity. Results will take place very quickly – you will feel it!

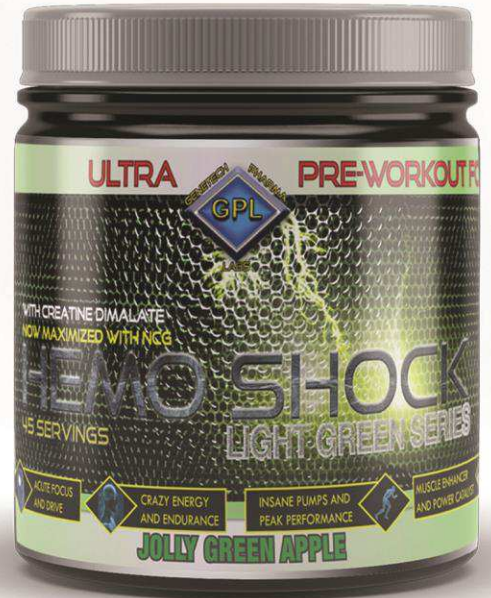

HEMO SHOCK can help bodybuilders and performance athletes achieve that next level of physical performance. Expect explosive strength, quick recovery in between sets and skin bursting pumps in the gym. The muscle growth formula in HEMO SHOCK is scientifically proven!

HEMO SHOCK is a super powerful preworkout powder that can be cycled by both guys and gals! Users experience increases in strength and endurance, increases in lean muscle mass, accelerated fat loss, and quick recovery from workouts.

HEMO SHOCK covers all facets of the “Complete Workout Powder” by including power and endurance ingredients, nutrient transport ingredients, energy and focus ingredients and electrolyte ingredients to increase metabolic activity.
